About the Magellan Core ESG Fund (Managed Fund)

The Fund offers investors an opportunity to invest in an actively constructed, systematically managed and continuously monitored ESG-focused portfolio of 70 to 90 of the world's best businesses, leveraging Magellan's quality investment research capabilities, investment philosophy and proven ESG framework. The Fund seeks to achieve attractive risk-adjusted returns over the medium to long term through investment in a diversified portfolio of high-quality companies. This objective incorporates consideration of environmental, social and governance risks and the application of a proprietary low carbon framework. It is not our intention to hedge the foreign currency exposure of the Fund arising from investments in overseas markets.
